

Pre-Kindergarten and Extended Day Program Students Immunizations Required By The State

Date: _____

Child Name: _____

Birth Date: _____

Nebraska State Law requires that all children attending a licensed childcare or pre-kindergarten program provide proof of immunization before being allowed to attend (see reverse). We require the information indicated below in order for this child to be in compliance with the law.

You must provide a record of immunizations or begin another series of immunizations. Immunizations may only be waived for a documented medical reason or valid religious objections. If either of these situations pertain to your child, please contact the school at 402-291-1694
